See https://ubuntu.com/esm or run: sudo pro status

astro@astro:~$ sudo groupadd ProjectX
(sudo authenticating) Password:
Usage: groupadd [options] GROUP

Options:
  -f, --force                exit successfully if the group already exists,
                             and cancel -g if the GID is already used
  -g, --gid GID              use GID for the new group
  -h, --help                 display this help message and exit
  -k, --key KEY=VALUE        override /etc/login.defs defaults
  -o, --non-unique            allow to create groups with duplicate
                             (non-unique) GID
  -p, --password PASSWORD    use this encrypted password for the new group
  -r, --system               create a system account
  -R, --root CHROOT_DIR      directory to chroot into
  -P, --prefix PREFIX_DIR    directory prefix
  -U, --users USERS           list of user members of this group
                             Use the extra users database
                             --extrausers

astro@astro:~$ sudo adduser student1
New password:
Retype new password:
passwd: password updated successfully
Changing the user information for student1
Enter the new value, or press ENTER for the default
  Full Name []: student1
    Room Number []: 1
      Work Phone []: 2
      Home Phone []: 3
